In her career of over a decade, the actress is seen playing vivid characters, but the Pari's teaser and the poster released, do not need any explanation. Pari is not like the other films of the actress, Anushka Sharma.

If you have seen the trailer for the film or the poster of the film then you might have felt the chills running down your spine. It is one of the never-seen before avatars of the actress that her hubby is also excited to see this time.

Virat Kohli, the proud Captain of Indian Cricket Team is currently in South Africa leading the team and bringing victory for the country. He just saw the trailer for the film and felt 'blown away'. He further added that he can't wait to see her better-half in an avatar that he had never seen before. He is planning to return before the release of her film, Pari. This film produced by Clean Slate belongs to the production house of the actress only. It is expected that the film will take the horror movies to a completely new level.

Pari is scheduled for release on Holi.
