

Dallas-based AT&T Internet services restored by technicians for North Texas customers

Posted by [Sumit](#) | October 16, 2018

According to the reports from the sources, TV and Internet access was restored to the North Texas customers of Dallas-based AT&T.

The services vanished around 9.45am on Monday and technicians resolved the issue by Monday night. From the spokesperson, it was found that the services disrupted due to an electrical fire at one of the facilities in Richardson.Â
