According to the police, the trio acted as the lookout and the others raped the minor, 16-year-old mentally challenged girl in their campus bathroom. The girl reported the case after four days and all of them, Lanier, Garcia, and Willis were immediately banned from the school.

Police have received a surveillance video from the school that clearly shows Lanier following the girl and entering into the bathroom with her. He was also seen standing outside to look out for his friends. This video is solid evidence in this case.

Garcia and Willis will be facing charges of aggravating assault and their trial is still waiting.
