Taapsee Pannu is all set to come up as the former captain of the Indian women's cricket team, Mithali Raj, in her upcoming biopic titled, Shabaash Mithu. It is expected that the actress will begin shooting for the film in the middle of 2020.

While giving an interview, Taapsee accepted that it will be difficult to play Mithali Raj as she loves watching cricket a lot but has never played the game. This film will be a quite challenging one for her.

She will begin preparing for the film at the start of 2020 and will start shooting from the middle of 2020.

On December 3, Taapsee wished Mithali Raj on her birthday and shared some pictures from her birthday celebrations.
