

CSK must improve, says MS Dhoni

Posted by [Sumit](#) | May 19, 2018

MS Dhoni, the captain of the Chennai Super Kings of this IPL2018 season expressed his concern for the team.

After a big loss against Delhi Daredevils, Mahendra Singh Dhoni said that his team really needs to pay more attention to the game in the last stages.

The team needed only 163 runs for win against DD but the match at Ferozeshah Kotla stadium was not in favor of the team.

After losing the game, MS Dhoni said that strengthening your strength and the weakness at the same time is all that gives you strength to win the game.

Mental presence is more important than the physical abilities of the players. His teams need improvement if players really want to win the season, says Dhoni.

Despite losing the match, CSK still holds the second position on the points table.
