After Sanjay Leela Bhansali's Padmaavat, the Bollywood Film Industry is coming up with one more story a queen from Jhansi. Yes, you guessed it right!!! We are talking about the movie, Manikarnika, The Queen of Jhansi.

This movie, Manikarnika The Queen of Jhansi, starring Kangana Ranaut is supposed to hit the screen very soon.

Just like the controversial release of Padmaavat that faced most of the obstacles from the Rajputs, Manikarnika: The Queen of Jhansi is expected to get maximum opposition from Brahmins.

Sarva Brahmin Mahasabha, a Brahmin organization has already started complaining that the film has distorted some of the historical facts which are not acceptable by their organization. This Brahmin organization has warned the director and other superstars who are directly or indirectly linked to this movie. They sent an open letter wherein, the film makers are warned not to make this film else they would interrupt the film shooting in Rajasthan.

Rani Lakshmibai was a great freedom fighter. She was one of the courageous leaders who had the will to win good over evil. The film also depicts similar kind of character.

They have neither distorted the historical facts nor they have added any objectionable content in the movie.
